Email - Website - GitHub - LinkedIn

TECHNOLOGIES

Python - Django - AWS - HTML - CSS - JavaScript

Mongo DB - PostgreSQL - Bootstrap - ReactJS

GitHub - Trello MySQL - Agile teamwork

PROFESSIONAL SUMMARY

I am a graduated full stack web developer, with increased formal knowledge of Full Stack Web Development. I have enthusiasm and understanding of various programming languages, for example, Python, Django, JavaScript, and HTML.

I have professional experience in working remotely as a member of a team using Agile methodologies for example Scrum.

I am looking to join an organisation where the opportunity for growth and personal development is embraced.

EDUCATION

Diploma in Software Development

Second Class Honours

Code Institute

I am currently expanding my knowledge by undertaking online courses with Udemy and Pluralsight. My current courses are concentrated on coding with React.

PROFESSIONAL EXPERIENCE

Full Stack Developer - Freelance

Silverheath Limited (Own Company)

August 2019 to Present

Working as a member of a small team. Using the full SDLC to create and deploy projects. This includes coding automated testing into the projects. The applications have ranged from landing page style company profile sites ranging to full e-commerce shops. During this process, we used Agile methodologies for example Scrum to maintain workflow on our projects.

Following the latest industry standards, all of the projects are designed, coded, and tested for use on all screen sizes Mobile Phone, Tablet, and Desktops. Using a mixture of Python, Django, PostgreSQL, MongoDB, MySql, JavaScript, HTML, and Github.Working as a freelance developer I mhave successfully sourced clients from LinkedIn and Facebook. Managed projects through the full SDLC to create and deploy projects. Landing page style company profile sites ranging to full e-commerce shops.

Following the latest industry standards, all of my projects are designed, coded and tested for use on all screen sizes Mobile Phone, Tablet and Desktops. Using a mixture of Python, Django, PostgreSQL, MongoDB, JavaScript, HTML and Github.

HGV Lorry Driver

Various

May 2011 to January 2020

Driving a multi-ton machine that relies on computer systems and a human operator to get cargo to necessary points safely. Using my excellent customer service and problem-solving skills daily. Monitoring and achieving key KPI's.

Help Desk Support Analyst

Phoenix IT

October 2003 to May 2011

Providing 1st line help desk support for two major contracts (CPS and OFSTED). In contact with users via Telephone and Email. Using my excellent communication and problem-solving skills. Following the complete ticket management process. Maintaining and monitoring resolution targets.
