PROFESSIONAL EXPERIENCE

Full Stack Developer / Director   August 2019 to Present
Silverheath, Limited, London, United Kingdom

Propel forward progress for projects, creating fresh and innovative websites to meet the unique needs of each client. The complete full life cycle of projects, from concept to completion, including research, design, coding, and deployment. Utilize knowledge of and experience in HTML, CSS, Bootstrap, JavaScript, and Python. Perform coding on AWS, GitPod, and ATOM, and then back up onto Microsoft OneDrive and GitHub.

- Sourced new clients through social media contacts. New clients acquired include Pottery Importer, Radio Broadcaster and Theatre Director and a local village website.

HGV Driver Assessor   2007 to January 2020
Multiple Employers

Drove results for companies involved with general haulage, multi-drop, curtain-sided walking floor trailers and container work. Played a key role as trainer and coach. Mentored clients for career growth and success.

Additional Experience

Helpdesk Analyst
Phoenix IT/Pink Roccade

Delivered excellent outcomes for clients, supporting them at deskside and remotely for application and hardware issues. Utilized critical thinking skills to develop creative solutions and resolve client issues.
